

TRANSPORTATION

It is the policy of the School Board to provide transportation for those students whose distance from their school makes this service necessary. The regulations of the State Department of Education shall govern any question not covered by this policy.

School buses shall be purchased, housed, and maintained by the Corporation for the transportation of resident students between their home areas and the schools of the Corporation to which they are assigned. The Superintendent may substitute smaller vehicles for reasons of economy or efficiency of operation.

Transportation of eligible vocational or special education children between their home areas and schools outside the Corporation shall be arranged through the use of Corporation-owned vehicles, through cooperation with other Corporations, through commercial carriers, and/or by other means in the most efficient and economical manner.

Vehicle routes shall be established so that an authorized vehicle stop is available within reasonable walking distance of the home of every resident student entitled to transportation services.

The Superintendent shall be responsible for developing and implementing appropriate administrative guidelines for this policy.
